

APPLICATION FOR REGISTRATION

For a Karakul to be registered with KSAR we need a flock registry number on file.

Please complete the *Farm & Flock Finder* form, or provide information on the Alliance website **Flock Finder** page.

For Standard Registration complete this side of form and submit 1-4 photos for the registration certificate. For other options, see the back (page 2). Complete *KSAR Work Order/Fee Schedule*, and include appropriate fees.

Please write in or **circle** all that apply or are known

The first two sections below are optional for a standard registration. Please complete accordingly.

SKETCH SECTION

This may be submitted as an Application Addendum and may be used for *Photos Only Applications*. Sketches can be scanned for the registration. Draw markings and horns to represent those on the Karakul.

PHOTOS ONLY APPLICATION

Please complete Section 1 Identifiers on the front of this application and submit photos of head, side, tail, and birth coat if a lamb, or birth coat(s) of progeny if an adult. The Registrar will discern identifying information directly from the photos and *Sketch Section*, with possible follow up questions.

New breeders are encouraged to learn the terms by reading the Registry documents, *The Karakul Handbook*, talking with experienced breeders, and/or utilizing the *Birth Coat Assessment* and *Barn Worksheet* documents.

IDENTIFYING PHOTOS NEEDED

The best *identifying* photos include head, tail and markings.

For applications from known flocks—a single photo per sheep is acceptable.

For new flocks, required—four photos including a headshot, the tail, side, and birth coat, or coat(s) of progeny.

Certificate transfers from other Karakul registries—must include a useable photo. If photo is too grainy for use on a new certificate, a current photo is usually required.
